## Providing proper care for your loved one requires the right people, tools and processes.

You get all 3 with our unique program

### 1. The Right People

Having the right people in place to provide and help coordinate care for your loved one is the key to successful home care. Our people make the difference.

### Professional Case Manager

A highly-qualified point person will oversee the non-medical care we offer and provide information you and your various other care providers can use to stay in control of your loved one's care.

### Certified Caregivers

All our caregivers are certified through the Indiana Association for Home and Hospice Care (IAHHC) caregiver training program, bonded and insured. We perform rigorous employment and background screens to ensure each is worthy of your trust.

### 2. The Right Tools

Having clear goals, knowing how to accomplish them and monitoring your progress is the best way to get the results you want. We provide tools designed to help you and your loved one accomplish your unique goals.

- Comprehensive Needs Evaluation
- Service Plan
- Monthly Progress Reports

### 3. The Right Process

Your loved one's needs are always changing, and we're with you every step of the way. Your case manager and caregivers are constantly monitoring your loved one's situation so you have the information you need to make good decisions about his or her care.

*Be empowered to take control of your loved one's care with the right resources and information.*

### We Offer Assistance With:

- Medication Reminders
- Nutrition
- Personal Hygiene
